

PayZen Responsible Disclosure Policy

Data security is a top priority for PayZen, and PayZen believes that working with skilled security researchers can identify weaknesses in any technology.

If you believe you've found a security vulnerability in PayZen's service, please notify us; we will work with you to resolve the issue promptly.

Disclosure Policy

- If you believe you've discovered a potential vulnerability, please let us know by emailing us at vulnerability@payzen.com. We will acknowledge your email within five business days.
- Provide us with a reasonable amount of time to resolve the issue before disclosing it to the public or a third party. We aim to resolve critical issues within ten business days of disclosure.
- Make a good faith effort to avoid violating privacy, destroying data, or interrupting or degrading the PayZen service. Please only interact with accounts you own or for which you have explicit permission from the account holder.

Exclusions

While researching, we'd like you to refrain from:

- Distributed Denial of Service (DDoS)
- Spamming
- Social engineering or phishing of PayZen employees or contractors
- Any attacks against PayZen's physical property or data centers

Thank you for helping to keep PayZen and our users safe!

Changes

We may revise these guidelines from time to time. The most current version of the guidelines will be available at payzen.com/reportvulnerability.

Contact

PayZen is always open to feedback, questions, and suggestions. If you would like to talk to us, please feel free to email us at vulnerability@payzen.com.

Disciplinary Action

Employees who violate this policy may face disciplinary consequences in proportion to their violation. PayZen management will determine how serious an employee's offense is and take the appropriate action.

PayZen
600 California Street
Suite 15-023
San Francisco, CA 94108

Responsibility

It is the CTO's responsibility to see this policy is enforced.
