

# The operating system for healthcare affordability

We reduce financial barriers for patients to afford care while removing complexity and friction for providers to get paid.

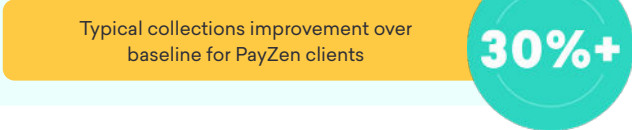

## The most automated, patient-friendly solution

- Designed for patients who require **extended payment options**
- No interest or fees, ever, with both **pre-care and post-service** options
- Terms are **personalized** to patient's ability to pay, up to 60 months
- **100% of patients can enroll** into an affordable solution, regardless of creditworthiness
- Fast and easy digital enrollment and **world-class patient experience**

## Drives immediate, meaningful outcomes for providers

- Digital-first experience and personalized plans deliver an average **patient payment rate lift of 32%**
- **Frees up time and capital** by eliminating the need to manage in-house extended plans
- **Fully embedded experience** via Epic MyChart integration or APIs
- 4-week implementation time with **no IT investments** or fixed fees
- Only solution offering **the choice to accelerate capital** with recourse or non-recourse financing or simply to leverage our technology and servicing
